## Floor and Wall Tiling 3N0523

**Programme Aim:** This programme has been designed to help enable participants to develop the knowledge and skills necessary to prepare, plan, and complete a range of tiling activities correctly understanding different methods, reasons, and designs used in the industry. Participants will learn to correctly measure an area, design tiling patterns, complete cutting, fixing, laying, and finishing techniques used by professionals while using the correct tools and techniques. This programme will ensure that participants understand all safety measures involved in this activity to maintain adherence to current legislation.

### Participants of this programme will:

- Understand tools and materials used in tiling activities
- Measure areas correctly to estimate cost of a project
- Design and identify a number of tiling patterns
- Prepare an area for tiling
- Be capable of cutting, fixing, and laying tiles correctly
- Understand how to complete grouting on laid tiles
- Know how to correctly clean an area after tiling has been completed
- Understand safety requirements associated with tiling activities and possible threats that could cause harm

### Programme Content

- Select materials and tools required to complete a range of tiling activities
- Understand relevant tools and techniques used by professionals to tile an area
- Prepare an area for tiling, complete cutting, fix, and lay tiles
- Grouting and cleaning an area after project completed
- Follow designs and patterns while laying tiles
- Understand relevant health and safety legislation

### Specific Support Available

A range of accommodations and supports are possible according to specific needs. This programme comes with a very comprehensive manual as an excellent source of reference after the programme
