Plastering 3N0571

Programme Aim: To provide learners with the opportunity to develop the knowledge, skills, and competencies necessary to complete a range of plastering finishes to internal and external surfaces. Learners will explore the correct tools and materials used to fix dry lining slabs and plaster to surfaces, ensuring that all appropriate maintenance of tools and equipment are completed correctly. The learners will be able to differentiate between various plaster coats including bonding, floating, rough cast, plaster dots, and spots and stippling. Demonstrate the correct process of fixing dry lining slabs to walls and ceilings while ensuring the health, safety, and personal hygiene procedures are adhered to

Participants of this programme will:

- Understand what health and safety legislation effects plastering
- Identify the correct PPE needed in order to complete a range of plastering tasks
- Be capable of planning and designing an area ready to be plastered
- Complete a range of tasks to an excellent standard
- Be confident when providing advice and choosing the correct tools and equipment
- Be able to fix dry lining slabs to walls and ceilings, and apply a range of plaster coats to external and internal surfaces

- Health and safety in plastering
- PPE
- Preparation and design
- Setting up
- Selecting the right tools and materials and ensuring the correct maintenance
- Capable of identifying a range of plastering techniques
- Fixing dry lining slab to walls
- Apply a range of plaster coats to both internal and external surfaces
- Completion of work and general maintenance required

Specific Support Available

A range of accommodations and supports are possible according to specific needs. This programme comes with a very comprehensive manual as an excellent source of reference after the programme
